

## Conquer Adversity and Become a Game Changer

- ▶ No matter what we undertake there is adversity.
- ▶ Adversity comes in all "flavors".
- ▶ Some of it is sweet and some of it is salty.
- ▶ There is the sweet taste of adversity as you stretch and strive to climb that mountain.
- ▶ You can taste the salt of persistence; you can feel the intensity of "making it".
- ▶ You can taste the sweetness of your tears of glory.
- ▶ You stand at the summit, breathing in the sweet taste of victory, but only for a moment.
- ▶ You can see beyond to the next mountain; what series of adversities will there be to climb to the "next level"?
